

- Family owned Finnish company
- Production in Finland, 97% exported to over 100 countries
- Turnover 2017: 271 M€
- Personnel 2017: 1,223
- R&D budget 3,2%

- High quality abrasives, tools and supplementary products
 - Abralon, Mirlon
 - Abranet: dust free surface finishing
 - Small and powerful tools for sanding

Nanotextured surfaces - Innovation with bionanomaterials

What:

Supporting scale-up of bio-nanomaterials in 4 industrial value chains

- Versatile surface treatment pilot
- Joining excellent expertise in
 - ✓ bionanomaterials
 - ✓ designing formulations
 - ✓ surface treatment technologies

Why:

- More sustainable materials
- More durable materials
- More efficient manufacturing
- Health benefits for the workers
